AN ARMISTICE HAS BEEN COMPLETED

Officers of Japanese and Russian Armies Sign Paper.

MEETING HELD IN OPEN FIELD

Armistice Takes Effect on Septmber 16 Special Naval Envoys to Name Neutral Zone for Navies Will Meet Soon—Other News.

Gunshu Pass, Manchuria, Sept. 14.—Thursday—Owing to the variance between Russian and Japanese time, and also the fact that the exact spot for the meeting of the Russian and Japanese representatives had not been decided, Major General Ovanovsky, representing General Linevitch, was the first to arrive yesterday morning at the place for the armistice conference. General Fukushima, representing Field Marshal Oyama, with Colonel Tanka and Captain Tanaja, two professors of international law, Ariga and Soyi, and a guard of 50 men, had already arrived under a flag of truce.

Ovanovsky and Fukushima dismounted in the plaza near Shahotzu and after an exchange of greetings the two generals at 10 a. m. began the discussion of the conditions o fthe armistice, frequently retiring for the purpose of consultation. All the houses on the spot having been destroyer, the conference was held in the open, the officers sitting on the grass.

After nine consecutive hours' of negotiations, the armistice was signed at 7 p. m., it takes effect Sept. 16, agrees to the abolition of all hostile or inimical acts, establishes a neutral zone of four kilometers wide between the two armies, of which Shahotzu on the railway is the center. Maps showing the zone are to be exchanged. Only civilians will be allowed within the territory and communication between the two armies is to be only by the Shahotzu road. Special naval envoys are to meet near Vladivostok with one ship for each nation to confer and establish an armistice and a neutral zone at sea.

An armistice on the borders of Korea is to be arranged by separate negotiations between the local commanders and on terms similar to those agreed upon in Manchuria.

TO VISIT WILDS OF AFRICA.

Chicago Professor Will Spend Some Time Among Savage Tribes.

Chicago, Sept. 16.—Professor Frederick Starr, of the University of Chicago, anthropolgist, has been granted a leave of absence of more than a year by the officials of the university, which time he will spend among the savage tribes of Central Africa. He will leave Chicago tomorrow and expects to sail from New York next Monday.

He expects to reach Rome, at the mouth of the Congo, about October 19, and will go overland to the jungles of Ndombi, where he will live with the natives for a year. His headquarters will be 1,100 miles from the sea and the only white men who will be with him will be his Mexican photographer, Manuel Gonzales, a boy whom Professor Starr has educated.

The principal objects of his visit are to make a thorough study of the inhabitants of the land of the Ndombi.

Well Known Athlete Dead.

Chicago, Sept. 16.—John Lattimore, who had been head rubber for the Northwestern university athletic teams for the last eight years, was drowned yesterday in Sprink lake, near Waukesha, Wis., while in swimming. His body has not been recevored. Lattimore entered the Northwestern university eight years ago and was appointed head rubber for the university teams. During that time he made his preparatory course and entered the college of physicians and surgeons and would have graduated next June. During the summer he was employed as a baseball trainer at Atlantic City. His

AMERICANS VISIT EMPRESS.

Miss Alice Roosevelt and Party Presented to China's Ruler.

Peking, Sept. 15.—Noon—Miss Alice Roosevelt, Mrs. Rockhill, wife of the American ministers, Mrs. Newlan ls wife of United States Senator Newlands, and other ladies of Miss Roosevelt's party, went to the summer palace Wednesday and spent the night.

Yesterday they were received informal audience by the Dowager Empress. Mrs. Rockhill, who was first presented to the empress introduced Miss Roosevelt first and afterward the other ladies of the party. The empress moved among the visitors, chatting informally and presenting them with handsome gifts of bracelets and rings. This was followed by an inspection of the grounds of the summer palace. The whole visit was remarkable on account of the absence of formality. Returning to Pekin in the evening most of the party attended an "At Home" at the German minister's, where General Corbin and wife and Senator Newlands and wife are being entertained. The party spent today seeing the sights of Peking.

Tomorrow all will go to Tien Tsin to attend a reception given by Viceroy Yuan Shai Kai.

WILL DISCUSS TUBERCULOSIS.

Physicians from All Over World to Hold Meeting in Paris.

New York, Sept. 16.—Great preparations are being made, says a Herald dispatch from Paris, for the tuberculosis congress, which will be attended by delegates from all the nations of Europe and America.

The session will be open from Oct. 2 to Oct. 7. A special building has been set apart for their use, with large halls to accommodate the different sections. These are divided into scientific social, historical and industrial.

There will also be an exposition of food products permitted and recommended by physicians in tuberculosis cases. Rooms will be fitted up like those in Sanatoria, of three classes, those destined for rich patients, those for middle classes and those for the poor. Special exhibits will be made of pharmacy for tuberculosis and of house furnishings, such as armchairs and baths, for patients. Cleansing and disinfecting apparatus also will be displayed.

Workmen Make Demonstration.

Budapest, Hungary, Sept. 16.—Since early this morning dense masses of workingmen have been marching to the lower house of th ediet for the purpose of making a demonstration in favor of universal suffrage. — Crowds composed of other classes also gathered and strong cordons of police were posted near the building. Herr Julius Justh, president of the house, received the deputations who presented petitions setting forth the demands of the people. In reply Herr Justh said the position of the house prevented him from expressing an opinion but he begge dthe people to await quietly the decision of the parliament. Work is at a standstill in all the factories and the workers are taking part in the demonstration. No disturbances have been up to the time of this dispatch was filed.

Lord Robert's Visit Postponed.

London, Sept. 16.—Field Marshal Lord Roberts', visit to America has been postponed and will not be made this year. He received an invitation to address the annual meeting of the board of trade while in New York, to which he replied regretting that he is compelled to postpone his visit on account of official and other engagements not permitting him to leave England at the time he expected to cross the Atlantic.

Chinese Surgeons Attend Meeting.

San Francisco, Sept. 16.—Three prominent Chinese surgeons have arrived here on their way to attend the conference of military surgeons at Detroit, Mich. They are Dr. Po Kan Yuen, of the navy; Dr. Ying Young Tsui, of the army, and Dr. Wang Pang Chung, of the South China army. All of them are men of eminence in their profession, having been educated in

UNREPORTED CASES WORRY AUTHORITIES

Persons Who Take Fever Will Not Make Fact Known.

9 NEW CASES AND 3 DEATHS

Federal Authorities Will Use Very Stringent Methods With Those Who Refuse to Report Cases of Yellow Jack at Earliest Possible Moment.

New Orleans, Sept. 16.—Up to noon today there were 9 nine cases of yellow fever and two deaths.

New Orleans, Sept. 16.—Inspectors and doctors were so active yesterday in turning up new cases of yellow fever that apparently there were not a great many left today, the early report showing smaller figures for both cases and deaths. The weather is again clear and warm. Under the inspiration of Dr. White's appeal, the forces of the Federal government are putting increased zeal into their sanitary campaign.

Annoyed by Unreported Cases.

Annoyed by the constant digging up of hidden cases of yellow fever, which has added to the difficulty of stamping out the disease here, Dr. White is serving notice on the public that he and his staff hereafter will relentlessly prosecute those who may be guilty of suppressing cases. The attitude of the federal authorities heretofore has been one of benevolent toleration of shortcomings of certain elements of the community, but since their appeals continue to go unregarded, resulting in a menace to the whole community, sterner measures have been decided upon.

The service is now investigating several reports of cases where fever is being concealed, and no physicians called and as in the Caseuax cases, it will send the cases to the Emergency hospital and to pall those who are responsible of the failure to report. The increase in new cases has caused no alarm because the physicians are treating cases so skillfully that few deaths result, their efforts being forwarded by the mildness of the type of fever has now assumed, but the fact that new foci are constantly appearing is discouraging because it means a prolongation of the scientific siege to overcome the disease.

Advices from Tallulah and Lake Providence are again more cheerful. Dr. Chassaignac will make a hurried visit to the city of New Orleans to transact some pressing personal business, and will then return to Tallulah and remain in charge until the disease has been eradicated.

The situation there and at Lake Providence is being steadily helped by the exodus of those who can get away —a movement which the doctors are encouraging. The citizens have raised a considerable fund and this will be supplemented by a further contribution by the state. Elsewhere in Louisiana, there is improvement in the situation, with very slight spread of the infection to ne wpoints.

Suspects Stopped in Cincinnati.

Cincinnati, Sept. 16.—At least five persons suspected of having yellow fever arrived here over the Queen and Crescent line at 2:45 a. m. today.

Those held are Mrs. T. J. Roan, of Tallulah, La.; Miss Anna Stone, of Tallulah, La.; Mrs. Jones, of Tallulah, La.; Willie Walters Smith, of Lake Providence, La.; and Miss Stockner, of Lake Providence, La.

The train consisted of two hundred refugees from Lake Providence, La., and Tallulah, La., who were fleeing from the yellow fever.

Dr. Clark W. Davis, health officer of this city, being notified by General Passenger Agent Rinearson, that he was bringing about 200 people from the south up in a special, sent Dr. B F. Lyle, and an assistant, to board the train at Lexington, examine the people aboard and wire him.

Ambulances were at the train to receive the patients in response to a message from Dr. Lyle. When the train reached Lexington several persons were sick, attempted to escape, but were caught by the police and forced back into the train. They were taken to the branch hospital on their arrival here.

All the other passengers of the train were allowed to go to their destinations. Reports say a large number of these were also sick and were investigated by physicians during the day.

Fifty of the party of 200 came to the city absolutely penniless though each carried a lot of handbaggage. These fifty gathered together in a group at the Grand Central station. Congressman R. E. Ransdale, of Lake Providence, La., was on the train, and he and his family rendered every assistance to the stranded group of fifty.

Three New Cases at Nachez.

Natchez, Miss., Sept. 16.—The yellow fever situation took a bad turn this morning when three new cases were reported, all the patients being negroes.

One is a new foci.

Johnson, the white groceryman, was discharged this morning.

ARRESTED ON HONEYMOON.

Georgia Man Accused of Obtaining Money Fraudulently.

Lexington, Ky., Sept. 16.—Mrs. W. H. Moody, of Atlanta, Ga., mother of Dr Louis H. Moody, arrived here to be present at the trial of her son, who is charged with forgery and obtaining money under false pretenses.

Moody established a branch office here of the Southern Chemical company, of New York, and a few days later cashed two drafts on the alleged concern for several hundred dollars, but the drafts were returned and the concern pronounced a fake.

Before the alleged fraud was discovered a courtship of one week, Miss Hattie Bright, a daughter of Alderman J. I. Bright, and he was arrested in Nashville while on his honeymoon. He has been in jail several months, and it is said he is an escaped lunatic from an asylum in Georgia, and a plea of insanity will be made when the case comes up Saturday morning in circuit court.

Moody is a nephew of Judge Hamilton, of Macon, Ga., who will be here to assist in the defence.

Charged with Killing Sire.

Warrenton, Ga., Sept. 16.—Morgan Rivers was brought back here from Rivers was sent up from this county for burglary, and after serving a short time, escaped from the Clarke county camps. Rivers was convicted for burglarizing A. J. Locke's store. The night following his escape from camp, the Lockett store was again burglarinzed and Rivers, on being rearrested, confessed to having burglarized the store the second time. Rivers was tried once for killing his father, but was acquitted. He now confesses his guilt of the crime. The governor offered a reward of $100 a few weeks ago for Rivers' arrest, and the South Carolina authorities have claimed the reward.

Killed While Cleaning Gloves.

Birmingham, Ala., Sept. 16.—Mrs. Hattie Bird Stapleton, died Wednesday afternoon from burns sustained while cleaning a pair of kid gloves with gasoline. The gasoline was accidently ignited and the upper portion of the woman's body was frightfully burned Mrs. Stapleton was director of the Simpson Methodist church choir and was a well known musician of the city

Well Known Texas Judge Dead.

Boston, Tex., Sept. 16.—Judge C. C. Garrett, who resigned last week as chief justice of the first district court of appeals at Galveston, died early today at his home in Brenham, today aged 59. He was former law partner of Judge Seth Shepard, chief justice of the District of columbia.

Auto Line for Negroes.

New York, Sept. 16.—That R. H. Boyd, president of the Penny savings bank, of Nashville, Tenn., and purchased in this city four large automobiles for use on a new street automobile line for negroes in that city, was announced by the Union Transport company, of Nashville.

AMERICANS TO HAVE AN IMPARTIAL TRIA

Nicaraguan Government Mu Give Prisoners Justice.

TO MAKE NO DEMONSTRATIO

President Roosevelt Has Decided th It Is Unnecessary to Send Warsh to Central American Government This Tmie.

Oyster Bay, Sept. 16.—A misapprehension has arisen to the action of the case of William Albers and his brothe who are confined in prison at Ocatel, Nicaragua.

It is said here by authority of President Roosevelt that no demonstration against Nicaragua is to be made at this time. It appears from official correspondence that Albers is under arrest at Ocatel for an alleged violation of the law of Nicaragua and pending trial of court. Their trial will take place shortly. The various phases of the case have been presented to the government, the Albers brothers American citizens, and the president directed that the usual steps be taken to insure the prisoners absolute fair and impartial treatment at the hands

United States Consul General at Panama will be, if already he has not been directed by the state department to go to Ocatel to be present at the trial. His instructions are to follow the proceedings of the case with a view to assuring the Albers a fair trial.

It is assumed by the government that the men will get impartial treatment, but if they do not, any action of the government toward Nicaragua will be determined upon when any unfairness shall have been disclosed.

United States Minister Merry accredited to Nicaragua and Costa Rica will not go to Ocatel. He is in Costa Rica at present and probably will remain there for a time. Consul General will go from Panama to Corinto on the gunboat Princetown as the easiest and quickest way of making the trip. It can be said that no reason exists for cloaking the action of this government in secrecy as the proceedings directed by the president simply were taken to insure ordinary protection and fair treatment to American citizens.

Failed to Prosecute Murderer.

Portland, Ore., Sept. 16.—A dispatch to the Oregonian from Olympia, Wash., says that a man convicted of murder in the first degree and sentenced to be hanged has been allowed to live in jail at Walla Walla undisturbed for nearly three years. Oscar Bradshaw was convicted in Franklin county in December, 1902, and was sentenced to be hanged. He gave notice of appeal and was remanded to the Walla Walla county jail. Bradshaw never prosecuted his appeal and has been allowed to remain in jail undisturbed ever since. The prosecuting attorney for Franklin county now asks what he can do about it ,and the attorney general advises him to file the record in the supreme court and move a dismissal of the appeal for want of prosecution.

Farm Laborers Are Scarce

Macon, Ga., Sept. 16.—The usual reports about the scarcity of labor coming in, and it is said that a great many fields around Macon are white with cotton, while no hands are available for picking them. No price tempts the negroes to leave their home places about town, and the Calvin has been allowed to grow into meadless disuse from one cause or another. The equinoctial gale is usually expected between the 10th and the 20th of September, and it is feared that when it comes all of the cotton in the fields will be badly damaged if not ruined.

Indiana Official Removed

Indianapolis, Sept. 16.—David E. Sherry, auditor of state, was removed from office by an executive order issued by Governor Henley yesterday. The order charges that the office is guilty of a plain and inexcusable violation of the law, and a gross betrayal of his public trust in the investment of trust funds belonging to the state in private interests of his own.

LIBRARY CONTEST IS WAXING WARMER

Between Kirby Smith Chapter and Odd Fellows' Home.

A BIG RECORD FOR THIS WEEK

Kirby Smith Polls 16,828 and Odd Fellows' Home Has 14,572—Earnest Workers and Union Academy Make Small Gains—Elks Get Eight.

This week the Library Contest has been centered on the two leaders, and although there has been one prominent voting place omitted for two weeks, Kirby Smith Chapter rolled up 16,828 and the Odd Fellows got 14,572, while the others made small gains. The Earnest Workers have not had the vote at the Dorsey grocery, owing to the absence from the city of the man with the key to the ballot box.

There are only four weeks left of the voting, and the winner will probably have 200,000 votes. Following is the total vote to date:

Kirby Smith Chapter	157,552
Odd Fellows' Home	105,896
Earnest Workers	41,890
Union Academy	7,548
High School	5,694
Knights of Pythias	2,586
Masons	1,450
Elks	1,305

PANTS CAUSE TROUBLE.

Two Colored Boys Alleged to Try Flim-Flam Game—One Arrested.

Simon Bell and Chas. Brown, two well known colored boys about town, went into the store of Royal Cook Saturday, and their visit terminated in trouble.

Bell asked to look at a pair of pants. After looking over the stock he selected a pair which about fit his physique and pocketbook. The article was wrapped up, when Bell stated that he wanted to purchase a coat. While Mr. Cook was showing the coat it is alleged that Brown quietly slipped another pair of trousers into the package. When the pair decided to leave Brown picked up the package containing the trousers and started out, but the merchant was too sharp, and, noting that the package was too large for the contents purchased, demanded that it be opened.

Brown's breath came in long pants, and instead of complying with Cook's demand he made a dash for the door. Mr. Cook grabbed at the package, which fell to the floor, but Brown escaped.

Investigation developed the fact that Mr. Cook was correct, for two pair were discovered, which resulted in the arrest of Bell upon a charge of collusion on a flim-flam game. The arrest was made by Marshal Pinkoson, who released the defendant under a $5 bond for his appearance in the mayor's court Monday morning.

Inasmuch as the coat was not included in the list of garments there is a question in the minds of some as to whether Marshal Pinkoson can make a "suit" of this case.

Men Past Sixty in Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostrate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostrate gland and kidney trouble for years, and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." New Insurance Organization.

The National Union Fraternal Life Association is the name of a new fraternal insurance company, a lodge of which has been organized in this city by Robt. H. Jones, general superintendent, of Atlanta, Ga.

As the name indicates, this association is a purely fraternal order with insurance features, and is being organized upon the division plan, a certain number of counties comprising a division. Mr. Jones has succeeded in interesting some of the most prominent citizens and business and professional men in the city, and the following officers have been chosen for this branch, or lodge, as it is termed:

W. R. Thomas, mayor, president; Dr. D. P. Richards, cashier banking house of H. F. Dutton & Co., secretary-treasurer; Col. H. F. Dutton, banker; Dr. J. L. Kelley, superintendent schools; L. J. Burkim, merchant; Dr. T. F. Thomas, merchant, and George W. Hyde, merchant, directors.

W. G. Richardson has been appointed general agent and division manager for the counties of Alachua, Bradford, Levy, LaFayette, Marion and Putnam. Mr. Richardson is an ambitious worker and a hustler, and will no doubt make a big success of the venture.

The Original.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

ADGETT & BLACK INCREASE BUSINESS

Purchased Naval Stores Farm of Edwards, Griffin & Co.

10,000 ACRES ROUND TIMBER

And Twenty-Six Crops Are Acquired by the Purchase, Which is Located Near Highland—New Firm Will be Known as R. L. Black & Co.

One of the largest and most important naval stores deals ever consummated in this section of the State was brought to a termination a day or two ago, when J. B. Padgett and Lucas Black, who have been for the past three or four years engaged in the manufacture of naval stores at Hague, purchased the immense farm of Edwards, Griffin & Co., Highland.

The deal involved $45,000, and the purchase is said to be one of the most valuable made for several years in naval stores circles. By the deal the new firm, which will probably be known as R. L. Black & Co., has acquired 10,000 acres of fine round timber, and twenty-six crops, or 260,000 boxes, are now being worked.

Messrs. Padgett and Black have been among the most successful of the turpentine producers in this section. Their farm at Hague has produced most prolifically, and both being practical men have made a wonderful success. This business has been in charge of Mr. Black for some time, during which he has demonstrated the fact that he is thoroughly competent. He will assume the management of the new possessions.

Mr. Padgett is a citizen of Gainesville, having for the past few years resided with his family in East Gainesville. A little less than two years ago he purchased the elegant home of J. B. McDonald, which is one of the finest not only in Alachua county, but in the entire State.

The usual services will be observed at Holy Trinity Episcopal, Christian Advent and St. Patrick's Catholic churches.

NEW SCHOOL BUILDING.

The Progressive People of Newberry District Will Build at Once.

The people of Newberry special subscription district have determined to have a new and more modern school building and on Friday last Thomas Kincaid and J. Ira G. White, trustees of the district, came to town to make arrangements with the school board for the erection of same. It was agreed upon and the contract will be let in a short time with the provisions that work on the structure must begin at once and be pushed as rapidly as possible to completion.

It will be a modern and conveniently arranged affair, designed with a view to the purposes for which it is intended for several years.

Saw Mill at Cedar Key.

Tilghman & Sons have purchased a fine lumber mill and a considerable tract of land at Cedar Key and Mr. Tilghman and family will soon move there, where Mr. Tilghman will manage the business. It is hoped by their many friends here that they will not entirely abandon Palatka as a place of residence and will be here the greater part of the time. With a few repairs, it is said the new mill can be put in first-class order.—Palatka News-Herald.

MOZLEY'S LEMON ELIXIR

REGULATES THE
LIVER,
STOMACH,
BOWELS,
KIDNEYS.

The inventor of the famous "TERRELL SCRAPE," a man known wherever plows are sold and used, says:

"I have used MOZLEY'S LEMON ELIXIR for 10 or 12 years in my family for the stomach, liver and kidneys, and find it is the best medicine I have ever used. It is also a sure specific for pain in the back or under the shoulders. I have recommended it in numerous cases to my workmen, when sick and unable to work, and it has always given perfect satisfaction. H. D. TERRELL, President Atlanta Plow Co., Atlanta."

WORKING ON CENSUS.

Enumerator McRae is Making Good Headway—Will Finish in October.

Census Enumerator T. J. McRae of Hawthorn was among the visitors to this city Saturday.

Mr. McRae has been engaged taking the census of Alachua county, as provided by act of the Legislature, for the past two months. He has quite a force in the field and hopes to conclude his work by the middle of the coming month.

"This business of taking the census is a mighty slow and tedious job," he said, "but I have a good force and am confident that the work is being done thorough."

Mr. McRae states that he expects to reach the Gainesville section some time during the coming week.

Abscess.

Abscesses, with few exceptions, are indicative of constipation or debility. W. H. Harrison, Cleveland, Miss., writes, Aug. 15, 1902: "I want to say a word of praise for Ballard's Snow Liniment. I stepped on a nail, which caused the cords in my leg to contract and an abscess to rise in my knee, and the doctor told me that I would have a stiff leg, so one day I went to J. F. Lord's drug store (who is now in Denver, Colo.) He recommended a bottle of Snow Liniment; I got a 50c size, and it cured my leg. It is the best liniment in the world." Sold by W. M. Johnson.

THE YELLOW FEVER.

No New Cases at Pensacola—New Orleans Has Good Report.

Pensacola, Sept. 16.—This morning's bulletin announced there were no new cases since Thursday. Some parts of the city are released from quarantine. It is hoped the fever will disappear before October 1st.

At New Orleans.

New Orleans, Sept. 16.—From 6 p. m. yesterday to noon today there were 17 cases and no deaths.

From the country: Tallulah, three new cases, one death; Patterson, four cases, one death; Lake Providence, four cases.

Beautiful Women.

Plump cheeks, flushed with the soft glow of health and a pure complexion, make all women beautiful. Take a small dose of Herbine after each meal; it will prevent constipation and help digest what you have eaten. Mrs. Wm. M. Stroud, Midlothian, Tex., writes, May 31, 1901: "We have used Herbine in our family for eight years, and found it the best medicine we ever used for constipation, bilious fever and malaria." Sold by W. M. Johnson.

Contesting Validity of Law.

New York, Sept. 16.—Miners of bituminous coal from eight states are giving testimony before a notary here to be used in a test case next November in Scranton, Pa. The purpose of the case is to decide the constitutionality of a law passed by the Pennsylvania legislature in 1897, which provides that no man can work in the anthracite collieries as a miner until he has served two years as a helper, after which a certificate may be granted to him.

FIGHTING GOULD'S INTEREST.

Wabash Railroad Opposed to Proposed Arrangement of Magnate.

New York, Sept. 16.—Joseph Ramsey, formerly president of the Wabash railroad, has issued a public statement in which he asks stockholders of the road for proxies in his name for use at the annual election of directors, to be held at Toledo, O., on Oct. 10.

From the wording of this statement says the Herald, an attempt is being made to dispute the control of the property with George J. Gould, the serious contemplation of any such attempt, however, is decried in railroad circles, as it is stated to be the policy of the Goulds to retain 40 per cent of the stock of their properties, so that in the event of a contest, it would be no great effort for them to maintain a controlling interest.

It is semi-officially stated only recently that Mr. Gould expected to become the active head of the Wabash system to succeed Mr. Ramsey.

Are You Engaged?

Engaged people should remember that, after marriage, many quarrels can be avoided by keeping their digestions in good condition with Electric Bitters. S. A. Brown of Bennettsville, S. C., says: "For years my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once and finally made her entirely well. She is now strong and healthy." Sold at all drug stores and guaranteed, at 50c a bottle.

Sugar Rate War Settled.

New York, Sept. 16.—Aside from the few details reports of the trunk lines, western roads to gulf ports, and interested steamship companies yesterday reached a final agreement on sugar and coffee rates. The new schedule will take effect Oct. 7, and makes extensive advances to all western and southern points. The sugar rate war had been in progress the past three years and was one of the most bitter and costly ever known in railroad circles.

Like Finding Money.

Finding health is like finding money—so think those who are sick. When you have a cough, cold, sore throat, or chest irritation, better act promptly like W. C. Barber of Sandy Level, Va. He says: "I had a terrible chest trouble, caused by smoke and coal dust on my lungs; but, after finding no relief in other remedies, I was cured by Dr. King's New Discovery for consumption, coughs and colds." Greatest sale of any cough or lung medicine in the world. At all drug stores; 50c and $1; guaranteed. Trial bottle free.

New Police Chief for Panama.

New York, Sept. 16.—Policeman Geo. L. Jiminez has been appointed chief of police of Panama. He was so notified yesterday by Consul General Amador. He is the second chief of police selected from the New York force for the republic of Panama. The first former Detective Sergeant Davis, died of yellow fever, after a short stay on the isthmus. Jiminez is a Spaniard and does not fear the disease.

A Clear Complexion and Bright Eyes.

In most cases a sallow, blotched complexion and dull heavy eyes are due to poor digestion and an inactive liver. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels and makes the complexion smooth and clear. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. J. W. McCollum & Co.

Suicided to Escape Wedding.

Sioux City, Iowa, Sept. 16.—Theodore Schoemperlin of Litchfield, Minn., committed suicide here by drowning to escape matrimony. He left a note to his parents saying he was tired of living, as on Aug. 2 he became engaged to a young woman to pique another girl, whom he truly loved.

CONTAGIOUS BLOOD POISON

Contagious Blood Poison more thoroughly poisons the blood than any other disease. Every part of the body is affected when the virus becomes intrenched in the circulation; red eruptions break out on the skin, the mouth and throat ulcerate, glands in the neck and groins swell, the hair falls out, copper-colored splotches appear on the body, etc.

I was afflicted with blood poison, and the best doctors did me no good, though I took their treatment faithfully. In fact I seemed to get worse all the while. I took almost every so-called blood remedy, but they did not seem to reach the disease, and had no effect whatever. I was disheartened, for it seemed that I would never be cured. At the advice of a friend I then took S. S. S. and began to improve. I continued the medicine, and it cured me completely.
Hamlet, N. C. W. R. NEWMAN.

So highly contagious is this disease that many a life has been ruined by a friendly hand shake or from using the toilet articles of one affected with the poison. To cure this hideous and hateful disease a constitutional remedy is required. S. S. S. goes down to the very root of the trouble and forces out every particle of the virus from the blood and cures the disease permanently. S. S. S. is purely vegetable and drives out the trouble, root and branch, and no signs of it are ever seen again. Those who have been cured by S. S. S. can feel assured that none of the poison is left in the blood to transmit to innocent offspring. The entire body is built up and the blood made pure, rich and healthy by this great remedy. Book with instructions for home treatment and any medical advice desired will be given free of charge.

Important Supreme Court Decision.

Knoxville, Tenn., Sept. 16.—A special to the Sentinel from Bristol, Tenn., says the Virginia supreme court sitting at Staunton, has reversed a decision of a lower court in the case of the commonwealth in Virginia, the Virginia and Southwestern railroad et al, versus South and Western railroad. It was held by the lower court that the South and West did not exist as a corporation in Virginia, and could not make valid claim to about 15 miles of most coveted right of way for its proposed line in the heart of the Guest river valley coal field. The South and Western, it is said, will at once begin to build on this route, from Clinchport to Toms creek, Va. When completed, the road will, with its allies, extend from Ironton, O., to the Carolina Atlantic coast.

Devoured by Worms.

Children often cry, not from pain, but from hunger, although fed abundantly. The entire trouble arises from inanition; their food is not assimilated, but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once, very much to the surprise and joy of the mother. Sold by W. M. Johnson.

Russian Vice Consul Arrested.

Chicago, Sept. 16.—Prince Nicholas Engalitcheff, vice consul for Russia, in Chicago, was present in police court here to answer to the charge of violating the city ordinance regulating the speed of automobiles. The vice consul was arrested last night, in spite of his protest that he was exempt from arrest by reason of the fact that he was the representatives of a foreign government he was caused to deposit a cash bond of $15. When his case was called in the police court today the vice consul, who was accompanied by his attorney, secured a postponement of the hearing to Sept. 23.

A Remedy Without a Peer.

"I find Chamberlain's Stomach and Liver Tablets more beneficial than any other remedy I ever used for stomach trouble," says J. P. Klote of Edma, Mo. For any disorder of the stomach, biliousness or constipation, these tablets are without a peer. For sale by all druggists.

Sheriff Prevents Race Riots.

Henderson Mounts, Mo., Sept. 16.—Sheriff Henry and a posse of deputies today stopped the race riot trouble here and have restored peace by arresting a number of persons believed to have been implicated. The arrests were made without violence and it is now believed there will be no further trouble. The race war resulted from the employment of negroes to replace the whites in doing some of the heavier work in a lumber bill.

Attacked by a Mob

And beaten in a labor riot, until covered with sores, a Chicago street car conductor applied Bucklen's Arnica Salve and was soon sound and well. "I use it in my family," writes G. J. Welch of Tekonsha, Mich., "and find it perfect." Simply great for cuts and burns. Only 25c at all drug stores.

Dead Woman Identified.

New York, Sept. 16.—Lorenzon Berry, a carpenter of West Medford, Mass., today identified as that of his daughter Ella, the body of the young woman who committed suicide on Wednesday in the hotel Manhattan. She was a stenographer in her home town, he said. Mr. Berry declared that the publication of an untrue story in a Boston paper a year ago that his daughter had run away with a married man was the cause of her self-destruction. The next day Mr. Berry said it turned out that she had merely been on a vacation alone. Although the paper published a retraction, Mr. Berry added, the injury done her was great and she never recovered from it, but grew more and more downhearted and morose.

HE'S AFTER THEM.

Sanitary Officer Pinkoson has been after some of the people who have been slow in cleaning up around their premises. He has also slaughtered the weeds around the Tabernacle and done a heap of good work. It does not cost but little to keep clean when you once get cleaned up, and Mr. Pinkoson is making the people aware of this fact. There is no danger of Gainesville being visited by yellow fever if we only take a little pains, and if the officer is obeyed we will certainly be all right. And besides, we will soon be receiving our winter visitors and we want to make a good impression on them when they get here.

The railroad along West Main street should also be looked after, and if nothing more is done, the grass between the rails in some places might be cut on shares. The depot grounds would look better with a little improvement, so that people arriving in the city and those passing through would form a favorable impression of our town. There are several piles of sand in front of some of the residences that look as though the company had been shy on funds to pay section men. All this would cost but little and speak well for the railroad and city.

These suggestions are made for the good of all concerned and not to be read and forgotten.

The United States printing office at Washington has been bucking against the printing offices of the land for these many years and now it is in a big muddle. The country printer could not compete with Uncle Sam on job printing, although he could blow in column after column in his weekly paper to put up the patrons of the government concern.

The State Fair at Tampa will no doubt be the best ever held in Florida, but we would like to see a premium list to know where to enter our stock. We have as fine a collection of roaches as ever graced a sanctum and ate up the paste and drank all the ink in the well, but we have no list to show whether it would pay us to send them to Tampa.

Col. William Jennings Bryan will soon be in Europe looking over the affairs of the old country. Mr. Bryan must be admitted as one of the greatest men of the age. He has made the silver dollar do more than any other man. He has made it ring so hard that it has stung dangers in the ears of many to-day.

The Pensacola papers should stop fighting each other for a short time and make a united attack on the fever. Dr. Porter did a good job in Tampa and he will no doubt accomplish things in Pensacola if he has united support.

The people in the surrounding towns of New Orleans seem to be suffering more. A few days ago they could get no rest at Leeville to bury their dead.

Barney Potter's tavern did not pan out as well after all. He had better get on the stage now and play Simon Suggs in "Ten Nights in a Bar-Room."

MUST HAVE LIQUOR LICENSE.

The Commissioner of Internal Revenue at Washington rendered a decision on the 14th inst. that will seriously affect a number of patent medicines composed of distilled liquors. He has reversed a ruling of his department, made many years ago, and now decides that the manufacturers of these medicines must take out a license as rectifiers and liquor dealers and that druggists and others handling them will have to pay the usual retail liquor dealers' licenses. The commissioner in a letter of explanation to collectors of internal revenue says that there are a number of compounds on the market going under the names of medicines that are composed chiefly of distilled spirits, without the addition of drugs or medicines in sufficient quantities to change materially the character of the whiskey.

While no statement is made by the commissioner as to the medicines that will be affected, it is believed that several prominent and highly advertised medicines will be affected by the decision. In some instances the medicines have been found to contain as high as 45 per cent of alcohol, and there are many on the market, it is said, that contain 25 per cent of alcohol. These medicines are said to have immense sales in prohibition communities, figures collected in Massachusetts recently showing, it is said, that one much-advertised compound with a high percentage of whiskey had been bought to the extent of 300,000 bottles in one year in prohibition communities of one New England State.

OPPOSED TO RACE SUICIDE.

Jean Baptiste Martin, an American citizen for seventeen years by naturalization, and keeper of a noted cafe in New York City, is a fervid admirer of President Roosevelt and especially in sympathy with him on the subject of race suicide, as evidence of which he has posted this notice in the servants' hall:

"Any employe who from this date gets married will receive $100. Any employe already married will receive $50 at the birth of each child; provided, always, that such employe shall have been in my service for a period of twelve months. J. B. MARTIN."

SUNSTROKES.

The doctor has the advantage of the editor. He buries his mistakes, but the editor has to apologize.

The man who boards does not have to make much of an effort to refuse coffee, when it is offered him.

Out of respect for the day, we have refrained from any jokes on John D. Rockefeller in our Sunday edition.

The Sun shines in nearly every home in Gainesville, and it is therefore a more reliable advertising medium than half a dozen gossipy females, who are often dependent on hearsay.

If you have a grudge against a person, the best way to get even is to ask him to dine with you. Of course such an action is only to return good for unkindness, not a reflection on your cooking.

Canada has a cruiser, the Vigilant, that plows the waters of Lake Erie to keep United States fishermen on their own side of the duck pond. A few days ago this too vigilant craft tried to capture a fishing tug, but it didn't have speed enough, so the cruiser opened fire on the tug but could hardly make a dent in it. The Yankee tug was not in Canadian waters, however, and the Canuck cruiser was lucky in not doing any more damage than it did.

Bradford county is short on help to harvest the cotton crop.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

Take Hall's Family Pills for constipation.

The striking drivers of mail wagons in New York brutally assaulted a newsboy the other day, and if it had not been for the timely arrival of the police with drawn revolvers the drivers would have been on the front seat in some other vehicle.

Judging from the demand for steel rails at the present time, the mills of the country will be full of business way long into the year of 1906.

Mayor Pat Collins, of Boston, Dead.

Boston, Sept. 16—The death of Mayor Patrick A. Collins at Hot Springs, Va., was announced here by M. J. Curran, secretary to the mayor. A telegram received by Mr. Curran briefly reported the sudden demise of his chief. Mayor Collins left here about a week ago for Hot Springs to obtain a greatly needed rest. He was accompanied by his eldest son, Paul Collins. When he started south the mayor was apparently in good health.

Woman Keeps Suicide Pact.

Marion, Ind., Sept. 16.—In carrying out her part of a suicide compact entered into with her chum, Cleo Baugher, who committed suicide at Muncie a month ago, Miss Chloe Thompson, 17 years old, today swallowed a quantity of arsenic and died from the poisoning. Miss Thompson was at Muncie with the Baugher girl when she ended her life by taking arsenic. Like the Baugher girl, Miss Thompson took the poison while on the street.

APPEARING OLD

Acts as a Bar to Profitable Employment.

You cannot afford to grow old.

In these days of strenuous competition it is necessary to maintain, as long as possible ones youthful appearance.

It is impossible to do this without retaining a luxurious growth of hair.

The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness.

Newbro's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use.

Herpicide makes an elegant hair dressing as well as Dandruff cure.

Accept no substitute—there is none.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

THREE JURORS CURED

Of Cholera Morbus With One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Cleburne county, Alabama. He says: "While there I ate some fresh meat and some souse meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one small bottle cured the three of us." For sale by all druggists.

...CT OF MUNICIPAL OWNERSHIP ON INDUSTRIAL CONDITIONS AND ON THE CONDITION OF THE WORKINGMEN.

FROM AUGUST NUMBER OF "SERVICE," DENVER, COLO.

...haps the most pronounced unsat...tory result of municipal owner... is that being felt by the working... in foreign cities in which the prin... has been in effect for a number of ... When municipal ownership first ...me a reality it was hailed as a ...derful step forward. It was so for ...mber of years.

...ow the reaction is being felt. Con... reports and reports from men ... have made a study of the condi... bring to light many facts of the ...atest importance—facts that must ...al to the workingman, the man ... votes and the man who is the ...kbone of the nation.

The Clarion-Advocate of Denver, the ...st influential labor paper in the ...st and a paper that reaches a terri...y that constitutes one of the strong... union labor sections in the United ...tes, has recently published a series ...articles on the question over the sig...ture of its editor, a student of the ...nditions from the standpoint of the ...an who toils for his daily bread.

The first of these articles follows:

"To the Readers of The Clarion Ad...ate: Softly, now, softly, my enthu...stic friend. There are very few ...estions which have only one side. ...n't be too cocksure you have the ...al solution. We have made some ...stakes, as you know, before. We ...ght make them again. Let's look ...fore we leap. Let's look at both ...des before we come to a conclusion. Everything advocated by the ranting demagogues, who are always in evi...dence in a free society, is not in our interest and we know it.

"Maybe this last battle-cry of the politician savors of the demagogue. At any rate, it is not a question which should be a test of union faith.

"A man can be a loyal union man and be for or against municipal owner...ship.

"Here is one side of the question; where is the other? Do you think this article can be answered convincing...ly? Very well, then, do you answer it and show reasons for your faith.

"'Not every one that saith Lord! Lord shall enter into my kingdom;' and not everything which the politi...cian would make a test of faith will bear the scrutiny of stern investiga...tion.

"After all, this question is not so complex but that it may be discussed by those of us who work every day with our hands.

"Suppose we discuss it.

"In preparing this discussion of the question of the ownership by cities of the public utilities every effort has been made to steer the middle course; to give the facts, the figures, and eve...rything pertaining to the subject that can be given in a limited space.

"Importance attaches to the subject at this time because it is now, and will be for some time, the cry of the politi...cian in local affairs. Nationally these same partisans have agreed upon the policy of calling for government ownership of railroads, telegraphs and similar quasi-public enterprises.

"By means of the ballot the people of a country express their wishes regarding all public affairs. By the ballot they must express themselves on the question of government ownership, of municipal ownership. One of the political parties intends to offer them the opportunity of giving expression to their views on these questions.

"... at the polls to get into ...

"... places the cart before the ... Municipal ownership and gov...ernment ownership are to go on the ... for the purpose of winning elec...tions they should be placed before ... political offices; it should be the ... of conditions that would ... the people, and not the obtain...ing of offices, that should be the object.

"There is no question as to the feel...ing of a majority of the voters. They favor public ownership. But do they favor the ownership of publicly-owned utilities by a political party? The real voters, the men who work, whose right to vote is genuine, do not.

"The political party appeals to the workingman because the workingman is the bulwark of the entire governmental structure. The politician of the party favoring municipal ownership tells his story in glowing terms. The officer of the public utility corporation gets the politician on the other side to tell his story. Each exaggerates—the first for the purpose of winning a political victory, the second for the purpose of allowing the company to retain its business. The man who has a great deal at stake gets both sides—but he does not get any real information.

"Usually the matter has been presented to the workingman in this manner:

"Public ownership would mean better wages and more employment.

"To the ignorant the matter is presented in this way:

"Public ownership means free everything that is now sold by the utility companies.

"Granted that the plan would mean better wages, the natural question is, Who would draw the wages?

"The legitimate workingman?

"Not at all.

"The man who carried his precinct. The wages would be his.

"Would the city provide telephones, street railway tickets, water, light, gas, etc.? Would there be no charge for these? Perhaps.

"But somebody must pay for them.

"Who?

"The taxpayer. They cannot be produced without expense.

"These are the real questions:

"Can a city operate the utility industries and save money to the people individually and to the municipal corporation?

"Has it a right to engage in business in competition with its citizens, or to their exclusion as individuals or as a corporation?

"If the city had the same shrewd business men at its head as are at the head of utility companies it could make such enterprises a financial success. The right and wrong of the matter need not be discussed.

"Politics would hamper the success of municipally-owned enterprises. In operation they might be a success, but the expense might be prohibitive.

"Then, the ownership and control of utilities would be impracticable under our present political system because one party would perpetuate itself in power—the employes of the utilities would be a majority of the voters. At least they would hold the balance of power.

"Foreign experiments in municipal ownership, especially those of Scotland, are used as weighty arguments in favor of the system in this country. Charles T. Yerkes, one of the greatest builders of street railways, speaking of these in commenting on the Chicago situation, said:

"'Young, whom I took away from the Glasgow street railways (municipal) was handicapped in his work there, although he did his best to minimize political interference. Moreover, the politicians of Glasgow, while ignorant, are honest. Politicians generally in Europe are comparatively honest, whereas those of Chicago are the worst in the civilized world.'

"The chief error into which the politician falls, knowingly or ignorantly, in making calculations regarding municipal ownership of utilities, is the failure to include many important items as costs.

"One of the most vital of these is the not including of the loss of taxes. Somebody must pay taxes sufficient to conduct the municipality. If that municipality undertakes greater obligations the money to conduct them must come from somewhere. Taxation is the only source of revenue. If a big industry goes out of business the taxes it has paid are lost. But there is no corresponding decrease in municipal expenses. The result?

"Higher taxation.

"Then there is the rent that must be paid for property used by the city, or its equivalent in interest on money used in its purchase. This must become a part of the expense.

"Examples of ownership of railways by the municipality are few in this country. Chicago has voted for it, but the mayor of that city, pledged to follow out this policy, has virtually admitted its impossibility by proposing the acquiring of the railways by a corporation, a private corporation, which shall be under the eye of a municipal board. For political graft this system affords wonderful opportunities for the grafter—the situation is so plain that it needs no comment.

"The nearest approach, for puposes of comparison, to the railway situation, which is used so extensively in citing foreign examples, is the lighting question. There are numerous examples of this in the United States. On their face, as reported by the party conducting them, these are shining examples of success. Street lighting is the basis of the calculations, and the figures presented indicate that it is done at a wonderfully low cost.

"Chicago, which operates the most extensive municipal lighting plant in the country, is frequently used as an example—the lighting experiment was used in the election that favored ownership of street railways.

"Chicago claims to produce electric arc lamps at $60 per arc per year. Leaving aside facts such as antiquainted machinery and lamps and poor service the $60 is far from the actual cost of the lighting. Here there is no allowance made for services rendered by other departments, such as the purchasing department, the legal department. Water is not charged, an item alone that means an addition based on 5,000 lamps, of about $3 per lamp per year.

"But the Chicago authorities go farther. When additions are made to the system of wires, or when repairs are made, the work is done by the street department—that portion of it requiring manual labor. It is charged to the street department, and the lighting department is not charged with a cent of this labor.

"There is no charge made for insurance, the loss in taxation is not charged. In this way Chicago spends $60 per lamp for street lights.

"Expert accountants who audited the books of the city of Chicago reported that, with all charges that should be rightfully made against the lighting department, the cost to the city was $165 62, and not $62 09, as was claimed. The actual cost is based on the standard service.

"As an example of the effects of municipal ownership conditions in Great Britain, the following is quoted from one of the leading journals:

"'The Lord Provost of Glasgow, the official head of the second city of the empire, which has over 13,000 municipal servants in 1902 uttered a grave note of warning on this subject. He declared that 'one danger to his mind was that in the vast army of municipal employes they had an organized host, whose operations at the polls might be destructive of the very best government of the city. What the remedy might be, it was not for him to suggest at present, but in view of that growing danger, he had sometimes thought whether the time might not shortly arrive when disfranchisement might be a condition of municipal government, or, if not disfranchisement, that such bodies might be represented by only sectional representation, carefully and well differentiated.'

"Scores of examples of misleading information can be cited; nearly every attempt at municipal ownership shows the faults of the system under our present political conditions, the danger of graft, the certainty of less efficient service. What might be saved through absorbing the profit made by the private corporation would be lost through mismanagement, graft and offset by the loss in taxes and the necessity of charging against the lighting department the numerous costs usually omitted in municipal reports or hidden in charges to other departments.

"Thus, you see, there are two sides to this question, and the workers will do well to do a little thinking before they commit themselves, body and soul, to a group of selfish politicians, who never did and never will do them any real good. Next week I will raise another question. T. M. HYDER."

This was published on July 21. On August 4, Mr. Hyder presented some additional facts. This article follows:

"I have been doing some reading and clipping, and formed some conclusions, which I submit to your readers:

"So much has been said, and so many examples have been cited, of so-called successful municipal ownership enterprises in Great Britain that nearly every movement in this direction has been based upon what has been done in that country.

"Several years ago nearly every American consul in Great Britain made reports highly in favor of municipal ownership, and of government ownership of railroads. That was when the systems were just being established. The direct results only were in evidence. To ascertain the effect of the altered conditions on business in general, on financial conditions and on workingmen time was required.

"In some instances the consular reports of recent date reflect the more general effects of municipal ownership. Some of these show a surprising change of opinion, as well as a change in the actual conditions as shown by facts and figures. As these reports generally come from the same consuls who had made previous comments, they can be accepted as reliable and a clear statement of actual conditions.

"As being the point of perhaps the greatest interest in the United States the effect on the condition of the workingmen has been dealt with at great length by the consuls in their reports. They have endeavored to make due allowance for difference in other conditions, as compared to the United States, and have used their best efforts to draw conclusions applicable to this country.

"Naturally the condition of all business is reflected in the condition of the workingmen. They feel the effects of any depressing influences first. This rule applies to every part of the world. It must apply in Denver. Unfortunately the consular reports, which cover almost every subject, do not give sufficient details. They contain general information of value, however, and of interest and importance to every citizen, especially to the workingmen, whose daily wage is sensitive to every condition.

"The consul at Liverpool has made several reports covering the municipal ownership question. He made two reports within the last few years lauding the system, and showing clearly by figures that it has been proved a success. His statements, and the arguments used to reinforce them, were clear and definite—they left hardly any room for controversy.

"Then Mr. Boyle—James Boyle—made a third report. That was after the municipal enterprises had been in operation for a number of years, and after he had watched the experiments for a number of years. As affecting the labor situation and the workingman, this latter report is exceedingly interesting. That portion of it bearing on this subject follows:

"'Statistics regarding current trade in Liverpool, as in England and the United Kingdom generally, are very puzzling. The returns of the Liverpool dock board for the year ended June 30th, 1904, indicate prosperity at this port; yet the fact is that not for many years have so many men, particularly porters and dock laborers, been out of work as there are now. So, too, the British Board of Trade figures show a swelling export as well as import trade, and some political economists argue therefrom that trade was never better. It is common knowledge, however, that throughout the country at large there are more men out of work and wages are lower than for probably any period within the last seven or eight years.

"'Certainly trade generally is not in as good condition as it was last year, or for several years previously. Municipal and national statistics show an ever-increasing number of men out of employment; the wages for skilled men show a continual lowering during the last twelve months, the savings in the banks by working people have decreased; the popular resorts where the British workmen are accustomed to go by the hundreds of thousands during the summer for a holiday show a marked diminution of visitors, and the shopkeepers, not only in London, but in the other large cities of the country, as well as in the small towns and villages, are complaining of the slackness of business. The outlook for the coming winter is so bad that the local government board (national) issued a circular October 6th to the metropolitan board of guardians, calling a conference to consider steps to alleviate the feared abnormal distress. In other words, all the indications, with the exception of the figures of exports and imports shown in the British blue book, are that the past year has been anything but a prosperous one for the British people; and, owing principally to the crisis in the cotton trade, nowhere has the pinch been felt more than in Liverpool and in Lancashire generally. Yet it is rather difficult to explain why British trade should be so bad, in view of the fact that exports and imports have so far increased in 1904 over 1903.

"'The most plausible reason is that there has been, during the last year, a tremendous falling off of internal improvements, and in home demand; and, indeed, this has been the tendency for several years past. There is a marked stagnation in England just now in private enterprises, whether by individuals or companies.

"'So, also, there is an unmistakable cessation of the tendency toward the municipalization of industries, which seemed to have fairly captivated the English people a few years ago and which threatened to become almost epidemic, embracing not only public utilities, but a large variety of what had generally been considered to belong to the category of individual enterprises exclusively. Very little is heard just now of new movements in this direction; and, indeed, there are influences at work—well organized, though quiet—which have for their object the wiping out, or at any rate the curtailment, of 'municipal socialism.' This movement is taking advantage of the fact of the growing opposition to increased municipal taxes, the claim being made that the municipalization of industrial enterprises not only kills individual effort but adds to the municipal rates. Of course there is another side to this question. Still, it is significant that local authorities who are committed to the municipalization system are now devoting their chief energies to economy of management and to bringing out a good financial showing at the end of the year, so that the profits can go to the general fund, and thus ward off any increase in the taxes.

"'The latest returns show that in 1902 the local indebtedness in the United Kingdom was $1,717,082,910—an increase of $1,252,982,410 in twenty-eight years. The new spirit of economy is being manifested to soften criticisms against the system. British municipalities are now spending far less money than they were spending a few years ago in making improvements, and this fact has had a tremendous influence upon internal trade. It has perceptibly decreased the home demand in many lines of work. The slump in shipbuilding has also materially affected internal trade.

"'The result has been that British manufacturers have been able to give more attention to the export trade. As the labor market is cheaper than for several years past, and labor-saving machinery is now being largely used, the manufacturers are now better able to compete with other countries in neutral markets than they have ever been since American and continental competition first began to be seriously felt.'

"This statement of the situation, if straightforward and plain, is evidence of a change of opinion on the part of the consul. As bearing on the conditions affecting labor the report is very important.

"Numerous reports have been made by consuls recently because of the efforts that have been made in this country to inaugurate the system. One of these comments on the frequent assertions regarding the 3-cent fares on the tramways. This shows that the maximum of distance that can be traveled for this sum is two miles. There are no transfers, but fares must be paid again and again, and to ride over the line one foot means the payment of a second fare.

"Other reports show the pay of employes of municipal establishments. In Cologne the street railway motormen and conductors receive 71 cents per day of ten hours, approximately one-third the pay of American workmen of the same class. Even admitting that living is cheaper there than here, not in this ratio."

The publication of these articles caused a great deal of discussion in labor circles. It has developed a tendency to inquire further into a question that makes one of the most interesting political cries once started. The result of the discussions and investigations municipal ownership is being taken more calmly by the laboring men of the West, and they are beginning to know the real condition before they express an opinion.

DYERSBURG, TENN., June 1, 1901.

This is to certify that I have used one bottle of the Texas Wonder, Hall's Great Discovery, and have been greatly benefited, and can cheerfully recommend it to the public.

C. H. OLSTON.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 629, St. Louis, Mo. Send for testimonials. Sold by all druggists.

By request of the patrons of Archer sub-school district, Prof. J. L. Dickson of Atoka, Tenn., has been appointed to the principalship of that school, with Miss Anderson of White Springs as assistant. Prof. Dickson is regarded as a teacher of ability and comes with high recommendations. Miss Anderson is also a good teacher.

Friends of Milton Strickland of Paradise, who had the misfortune a few days ago to lose an eye by a piece of flying steel, will be glad to learn that the patient is greatly improved. Mr. Strickland suffered a great deal from this accident, and, while the sight cannot be restored, it is fortunate that the result was not more serious.

W. S. Moore of Hawthorn, for many years proprietor of the Commercial Hotel, and one of the most widely known hotel men in the State among the sportsmen, was in the city yesterday, and made The Sun an agreeable call. Mr. Moore states that he has been in correspondence with a number of hunters in the North during the past few weeks, and indications are that several will make their headquarters in Hawthorn during the coming season.

The attention of readers of The Sun is called to the article, "Effect of Municipal Ownership on Industrial Conditions and on the Condition of Workingmen," which will be found on the sixth page of this issue. This matter is worthy the serious consideration of voters, whether they do or do not favor municipal ownership, and is published for what it is worth, as municipal ownership seems to be the all-absorbing topic in Gainesville just at this time.

PHIFER BROS.,

Phifer's Corner, Gainesville, Fla.

COTTON FUND

CONDITIONS UNPARALLELED, but absolutely legitimate, have forced upon me the conviction that the time is opportune for an extensive

BULL CAMPAIGN IN COTTON.

HAVING RECEIVED many requests to organize and conduct a BULL CAMPAIGN, I have, after mature, deliberate and careful consideration of the conditions that surround Cotton this year, decided to accept subscriptions for that purpose, believing that advantage should at once be taken, at present prices, to secure a large portion of the inevitable advance in Cotton which is sure to occur between now and March 1st, 1906.

IN 1903, UNKNOWN, UNAIDED, AND ALONE, I proved to the World that my convictions were sincere, and that courage was not lacking to freely and fearlessly expound the knowledge I had derived from careful study of the situation.

WHAT I ACCOMPLISHED two years ago I believe I can and will do again, aided by the experience of the past, the conditions as they exist, the knowledge at my command and the necessary capital.

BEING CONVINCED that no opportunity has ever been offered where the possibilities were so great, and that a profitable outcome must be the result,

BEING CONVINCED that there never was a time when the demands of the World for Cotton were so great as they are at the present, and

BEING CONVINCED that every bale of American Cotton now in sight and every pound produced this year will not meet the requirements of the World's spindles for the coming season, **COTTON MUST ADVANCE.**

TO ALL THOSE, then, who have faith in my honesty, courage and judgment, I offer this opportunity and solicit their subscriptions to

THE COTTON FUND.

ALL OPERATIONS will be conducted through reliable, well known commission houses of the New York, New Orleans and Liverpool Cotton Exchanges.

ALL SUBSCRIPTIONS will be deposited in two Trust Companies and two National Banks in New York City and will be acknowledged on receipt of same by me and be proportionately drawn upon for use in my Cotton operations; the net profits will from time to time be divided pro rata in proportion to the amount subscribed, except that 20% of the net profits shall be retained by me as compensation for my services.

MAKE ALL CHECKS PAYABLE TO THE ORDER OF DANIEL J. SULLY AND SEND THE SAME TO 49 EXCHANGE PLACE, NEW YORK, NEW YORK.

DANIEL J. SULLY.

Wanted—Trustworthy man to manage branch office and distributing depot for large manufacturer. Salary to start with, $1,500 first year, and extra commissions and expenses. Applicant must have good reference and $1,000 cash, capital secured. Experience unnecessary. Address "Manufacturer," 21 West Atwater St., Detroit, Mich.

Mrs. Maretta C. Brooks, teacher of experience, and of the most modern methods, wishes to form classes in piano, organ, technique, modulation, phrashing, voice culture, and the art of singing. Special attention given to the healthful development of the body, which the thorough study of voice culture insures. Foundation work given to small classes at reasonable rates. References: Rev. S. B. Rogers, Hon. W. M. Holloway, Mrs. J. D. Turner. For further information call at Mrs. McIlvaine's, 108 N. Arredondo street.

All of the five different cancer patients who for some time past have been in Micanopy under treatment, have all been cured and discharged. The last one left for her home in Palatka last Thursday. Several of these patients were sent up here to Smith's studio for pictures, showing condition when treatment was commenced. Dr. Montgomery will have half-tones made for another book that he soon will publish. Also the lady blind for four years who was brought to Micanopy for operation has been operated upon by Dr. Montgomery and discharged with good sight for a woman of her age.

W. W. Bruce of Fairbanks was in the city yesterday and made The Sun an agreeable call. Mr. Bruce is in possession of probably the oldest letter in existence in Alachua county and one he prizes very highly. It was written by his father, W. Bruce, to the latter's mother and is dated Lexington, Ga., September 24, 1837, addressed to Mrs. Ann T. Bruce, Glyceville, Fleming county, Ky. No envelopes were used in those days and the postal charge was 25 cents, payable either in advance or upon the delivery of the letter. The writer had been absent from home for some months and speaks of the purchase of a house and lot in his adopted home and refers to other matters of interest to his dear old mother. The letter is in a fair state of preservation and gives evidence of the writer having received a good education for those days. Mr. W. W. Bruce is now in his 72d year and says he would not part with the letter to his grandmother for anything.
